vbw Business Magazine

Bavaria ranks at the top of international economy. Innovative products and services make its entrepreneurs successful throughout the world. The vbw Business Magazine presents interviews with notable members of German industry and society circles, provides exclusive insights into distinguished political and social events and introduces best-practice approaches and state-of-the-art products originating from Bavaria.

Let's talk business

We look forward to meeting you

“As the Bavarian Industry Association, we help to promote the economic strengths in our state and to increase potential opportunities. This is why the focus of our work strengthens the competitiveness of companies here in Bavaria.”

Should you have any questions, please do not hesitate to contact me.

Die bayerische Wirtschaft

Bavarian Industry
Association

Strong for Bavaria

The Bavarian Industry Association (vbw—Vereinigung der Bayerischen Wirtschaft e. V.) is the voluntary, cross-industrial, interest group of Bavarian industry.

We represent the collective economic, social, and sociopolitical interests of more than 100 Bavarian employers' and business associations, as well as more than 30 individual companies. Thus, we simultaneously preserve the freedom of economic activity and insure social accord.

Competent Creator

We and our members represent a broad spectrum of industries and interests. This strengthens our political influence. Together, we give an identity to the Bavarian industries and economy and enhance its profile.

- We are the central point of contact for policy makers.
- We give focus to the competence and experience of the Bavarian business community and regard ourselves as an active part of our pluralistic society.
- Together with our members we develop the political base for decision-making.
- We communicate the facts, demands, and positions of business to politics, society, politicians and governmental administration, as well as to the media and the public.
- We inform and advise our member organizations and companies and initiate an intensive exchange of opinions and experiences.

We Strengthen the Competitiveness of Bavaria's Economy

Advocacy—Agenda Setting—Lobbying—Networking—Services

For a Strong Bavaria within a Strong Europe

Our goal is to help to increase the competitiveness of our companies, and to secure Bavaria's future success. Our guiding principle is the social market economy, and it is our duty to preserve it.

We are committed

- locally and regionally
- nationally—in a constant dialog with representatives of the federal government, of political parties, and the administration in Berlin
- Europe-wide—we maintain contact with the governments of our European neighbors through our liaison office in Brussels and a close connection with related associations in Europe
- globally—through our liaison office in New York and our commitment to many international organizations such as the BIAC¹, DAFG², and others.

¹ Business and Industry Committee / OECD ² German-Arab Friendship Society

vbw Events

In our event series, we provide new ideas, address current topics, and promote direct dialog between our members and high-profile representatives from political and governmental entities such as the Prime Minister of Canada, Stephen Harper.

- *Bayerische Wirtschaftsgespräche (Bavarian Business Talks)*
- *Deutschland hat Zukunft (Strategy for Germany's Future)*
- *Vorsprung Bayern (Bavaria—One Step Ahead)*
- *Starkes Bayern – Starkes Europa*
- *Politischer Dialog Berlin / Brüssel / Regional*
- *Dialog international*

vbw Position Papers, Studies, and Expert Opinions

We summarize the viewpoints of Bavarian businesses in our position papers on political discourse and highlight the consequences and potential for improvement.

We initiate studies and advisory opinions that both give our members a head start in terms of information, and are a source of ideas for developing new pilot projects and member services.
